

Vermont Women's Fund (2025)

Vermont Community Foundation

Fund Guidelines

About The Vermont Women's Fund

The Vermont Women's Fund, a component fund of the Vermont Community Foundation, was established in 1994 as an enduring resource for our state's women and girls. The Fund remains the largest philanthropic resource dedicated exclusively to this mission. A council of people from around Vermont advises the Fund and participates in its grantmaking, fundraising, and leadership work.

Recognizing that definitions and language around gender are constantly evolving we use an inclusive understanding of women and girls. We welcome those who identify as women in a way that is significant to them, including trans women and those that are nonbinary, gender nonconforming, and gender expansive.* We recognize, too, the disproportionate marginalization of the voices of BIPOC individuals in Vermont.

*We are indebted to our core partner, Vermont Works for Women, for the clarity of their definition.

Our Vision

Vermont is a place where all women and girls thrive.

Our Values

- Shared Power
- Revolutionizing Systems
- Equity for All

Our Mission

We fund structural change to advance gender equity and justice in Vermont.

Our mission acknowledges the very different experiences women and girls have in Vermont related to race, gender identity, sexuality, class, age, and ability. We are committed to sustaining systems change and movement building to address the root causes of gender inequality. We believe economic security is a critical pathway to success for women and girls in the state. We engage in statewide partnerships, targeted philanthropic giving, research, and program support that addresses the fundamental needs of women and girls.

What We Fund

We support programs that seek to address systemic barriers to economic well-being, and those that recognize the disproportionate impact of these barriers on women and girls by race, gender identity, sexuality, class, age, and ability.

We are also invested in the sustainability of the organizations we support and seek to determine how best our funding can contribute to long-term viability, creativity, and generative change. We award single or multi-year grants that support programmatic expenses for pilot or established programs and/or general operating costs. We consider funding proposals that supports work at any phase of development (including pilots).

The Vermont Women's Fund is committed to addressing the needs of women and girls across all areas of the state and prioritizing statewide geographical representation. The Fund will also be attentive to projects or programs that engage with the arts.

Guidance for Proposals

Outcomes & Strategies

The Vermont Women's Fund will consider general operating support and programmatic proposals, including those designed to meet essential needs and those focused on long-term structural change, that contribute to the following outcomes:

- Make pathways to economic well-being (e.g., livable wage jobs, career development, entrepreneurship, and financial literacy) more visible, accessible, and affordable for all women and girls,
- Invest in the economic security and career prospects of unemployed women or those earning less than a living wage,
- Advance strategies that address systemic barriers to economic well-being and thriving in Vermont (e.g., education/training, childcare, transportation, access to health care, paid family leave, living wages, etc.), and/or
- Enhance the capacity of the organization to achieve its mission and practice stated values.

Critical Components

Proposals that include the following components will be prioritized:

- Desired outcomes aligned with the Fund's mission and focus areas, listed above
- Commitment to working with women and girls who are disproportionately impacted by systemic racism and sexism (BIPOC individuals, trans women and non-binary people, women living with disabilities, older women)
- Demonstration of how the proposed work will influence change and address systemic barriers and root causes
- Strategies grounded in research or best practices

- Projects that exhibit a collaborative approach
- A clear description of the desired vision for the program at the end of the grant term, and what questions will guide reflection and evaluation
- Regional representation across Vermont

What we do NOT fund:

- Personal financial support given directly to individual women/girls
- Individuals applying for scholarships or to attend school
- Endowments
- Campaigns to elect public officials
- Programs with religious instruction
- Projects that will be completed before the grant is awarded
- Businesses, business start-up funds, or loans
- Fundraising events
- Organizational debt
- Capital campaigns
- Indirect expenses over 10% of the project budget
